

SEEKS LAW TO CURB BANKERS

Comptroller Will Press Congress to Place Check on Interest From U. S. Loans.

By W. H. ATKINS.
International News Service.

New legislation, placing limitations upon the profits in interest which bankers may make on money borrowed from Federal reserve banks and re-loaned, will be recommended to Congress by Comptroller of the Currency Williams in his annual report, it was learned today.

WILLIAMS TO FIGHT.
Comptroller Williams, aroused to action by the practices of certain bankers in employing reserve bank funds to reap "unjustifiable" interest rates, is prepared to press his proposal before Congress, as a necessary step for the country's economic welfare.

Soon after Congress meets, the

"LANGUID"--- THAT'S THE WORD

Not Sick Exactly, Just Seem To Have No Ambition

An Awful Feeling Soon Necessary
Pepto-Mangan, The Red Blood Builder, Goes Away With Languor

If you don't feel like doing things, you won't. If you wonder where some people get all their energy, the answer is from good food which in turn makes rich, red blood.

If your food does not give the nourishment and vigor it should, it is most likely that your blood is too weak that it needs a little extra help for a time to build it up to normal strength.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties. "Gude's" is the genuine Pepto-Mangan. Look for the name "Gude's" on the package.

Of course he smiles—

He knows there's a good smoke just ahead of him. Twenty minutes of solid comfort and real contentment such as only a mild Havana, like a Flor de Moss can give him.

After dinner, or during the day, they are always crammed full of goodness.

Stunt Flier Arrested for Reckless Flight Over City.

OMAHA, Neb., Oct. 25.—William C. Brooks, aviator, of Blair, Neb., was arrested in Omaha on charges of "reckless driving" after he had completed a thrilling flight through the business district of Omaha. He said he wanted to show city folks what a country aviator could do.

Brooks will be tried for jeopardizing life and property, a charge known as the runaway. The flyer's stunts consisted of flying back and forth for an hour, rushing down between buildings for blocks at a stretch, the wings of his machine almost scraping the buildings on either side of the street, doing nose dives and tail spins to points only a few feet above the trolley lines.

Comptroller probably will confer with members of the Senate and House Banking and Currency committees, and an early effort will be made to push through an amendment to the national banking act, authorizing the proposed changes.

Failing to secure from the bankers themselves an expected response to his plea that present evils be corrected, the comptroller is preparing to prosecute his campaign vigorously before Congress.

Opposition to the comptroller still is bitter in Congress, and he will have to fight all the way to secure the modifications that he hopes to push through to check present abuses.

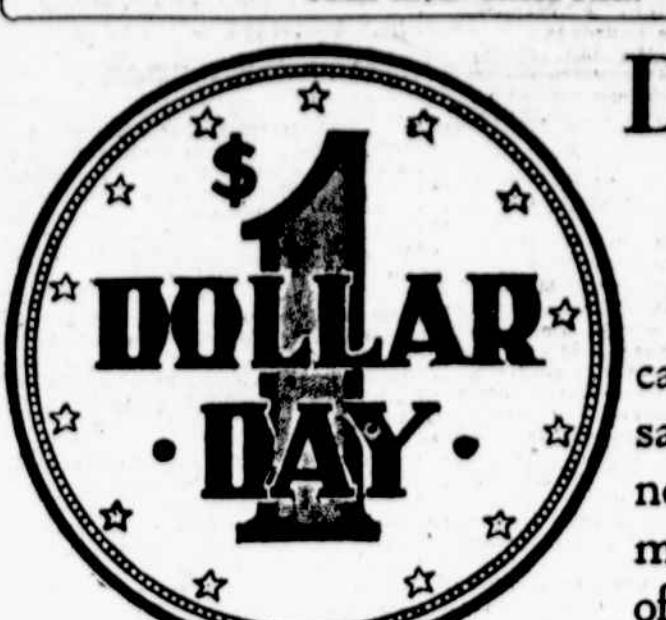

STOP "UNETHICAL" PRACTICES.
Considerable discussion is in progress among members of the Federal Reserve Board, of which Williams is an ex-officio member, with respect to possible amendments to the reserve act. Such amendments are inspired by the purpose to rid the banking profession of "unethical" practices, which officials here contend are throttling business progress in various sections. Just what form these modifications will take has not been determined. The Federal Reserve Board, however, is said to have been moved toward some action that will effectively prevent bank credit being too greatly reduced in various producing centers, because of shipments to New York to secure higher interest rates on demand loans.

RESERVE BOARD'S VIEW.
It is the board's view that much of the discontent arising out of the producing regions, because of lack of sufficient credit, is in part attributable to shipping away funds, including deposits, sorely needed at interior bank points to meet crop raising and harvesting demands, as well as to supply legitimate demands of other business enterprises.

Governor Harding, in response to the producers' demands, pointedly suggested a remedy for their plight lies in establishing a closer connection with home banks. The board has ruled that local banks are able to care for all demands for credit for essential purposes, but not to foster speculative ventures. The answer of the farmers is that they are told by their banks that local banks are unable to care for all demands for credit. But reserve board reports on this point show the loans outstanding reveal too great a percentage transferred to the accounts of connecting banks in New York, and home business and industrial enterprises are inadequately supplied with credit.
